

Gardex Lateral Filing Cabinets

Features

Gardex fire-resistant lateral filing cabinets come equipped with gang lock, selective locking system, suspension system and a 3-arm SwayGard system to minimize torque.

All drawers come equipped with integral rails for left to right filing of documents. Cross rails for back to front filing are available at no extra charge. The Gardex "Interlock" system allows only one drawer to open at any time to prevent tipping.

Five Year Warranty on All Parts and Labour.

All filing cabinets carry a lifetime after-fire warranty that covers you up to the replacement of the unit.

- Listed by Underwriters Laboratories Inc.
- Key-Operated plunger lock system
- Gard-lite insulation
- Independent insulation surrounds each drawer
- Rust-resistant textured finish

Optional Equipment

- **Interior cross tray**, to be set on inside drawer, permits the filing of cheques and cards of various dimensions.
- **Factory-installed drawer-in-a-drawer** factory installed option that divides the interior of each drawer. Optional card file inserts allow it to accommodate cards, fiches, cheques and/or cross trays.
- **Security locks**. Independent security can be added for one or more drawers with optional key locks, combination locks, or both.
- **Caster base**.
